### Description:

The SP-WD420 is a wall mount speaker built-in 100V transformer and 8Ω input. The 100V transformer and 8Ω technique reduces line losses on longer distance and allows easy parallel connection of multiple loudspeakers. The built-in coxial 4"+1" two ways speaker driver is designed of wide frequency response 90-20KHz, the multiple power taps 20W-10W @100V, and 8Ω inputs are helpful for different applications varies from room size and ambient noise surroundings.

The Metal grille, ABS enclosure and stainless mounting bracket are of white or black color. Easy and secure wall-mounted installation through the supplied stainless mounting bracket.

It is ideal choice for industrial and commercial applications in Conference rooms, business centers, exhibition centers of hotel, school and factory where background music and paging is needed.
